

RISE Spring Summative Student Login Instructions

- 1) Restart your computer.
- 2) Log into the computer with the **pcsdtest** account.
- 3) Turn your volume up.
- 4) Click on the Questar app on your dock.
- 5) If it is not there, go to Finder, choose Applications and clicked on the Questar

UT application.

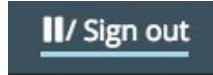

It is also in Self Service.

- 6) Go to the Test Administration Manual, follow the instructions on page and read the script to the students.

NOTE: Sound MUST be turned up on the computer prior to testing or it will not work, meaning if students want the question read to them, volume must be up, will not work during the test.

NOTE: Pause is up in the upper right hand corner of the test next to logout.

A dark blue rectangular button with a white pause symbol (two vertical bars) on the left and the text "Sign out" on the right.

It is just the Pause symbol , does not say pause, so if a student has to pause the test they can. If they wait 20 minutes to log back in, they will need a proctor code to get back in.
